

## Certificate of Analysis

**Product Description:** GeneClean® Kit  
**Catalog Number:** 1001200\_  
**Lot:** 138280\_

**Formula:** N/A  
**CAS #:** N/A  
**Physical Description:** Kit

**Formula Weight:** N/A  
**Storage:** 15 - 30°C

The GENE CLEAN® Kit is designed to optimally purify DNA from solutions, agarose gels, acrylamide gels and enzyme reactions. DNA purified with GENE CLEAN is excellent for all uses such as cloning, PCR, sequencing, or any other necessary reactions.

Component	Cat#	Lot#	UN#, Packing Group, Classification	Quantity
Nal	1001201	SR01929	UN3082, III, 9	60 ml
New Wash	1001202	SR01123		7 ml
Glassmilk	1001204	92601		1.25 ml

Test	Specification	Result
Identity Test	Passes	Passes

All GENE CLEAN® Kits are shipped at room temperature. All GENE CLEAN® reagents are stable at room temperature. Nal solution must be kept away from light and open air sources to prevent oxidation. Nal is packaged under nitrogen gas to further reduce chance of oxidation. Purging Nal's bottle with nitrogen gas is a preferred storage method after opening, especially for long-term storage. Ensure that the Nal cap is always very tight. Sealing the cap after opening and during long-term storage is also recommended. See the provided Kit Manual for further indications of Nal. Shelf life may be extended by storing at 2 - 8°C.

Recommended Retest Date (MM/DD/YYYY): 10/31/2020
