

TECHNICAL INFORMATION

Catalog Number: 102260

Menadione Sodium Bisulfite Trihydrate

Structure:

Molecular Formula: C₁₁H₉NaO₅S · 3H₂O

Molecular Weight: 330.24

CAS#: 130-37-0

Synonym: 2-methyl-1,4-naphthoquinone sodium bisulfite

Physical Appearance: White powder

Purity: 63-75%

Solubility: Soluble in water 1%, clear colorless solution; slightly soluble in alcohol, chloroform; almost insoluble in ether, benzene

Available in: 100gm
