

TECHNICAL INFORMATION

Catalog Number: 152151

Tomatine

Structure:

Molecular Formula: C₅₀H₈₃NO₂₁

Molecular Weight: 1034.20

CAS # : 17406-45-0

Synonym: Lycopersicin

Physical Description: White to off white crystalline powder

Solubility: Soluble in DMSO, dioxane and propylene glycol, pyridine (20 mg/ ml-clear, colorless solution). Insoluble in water, petroleum ether and ether
