

TECHNICAL INFORMATION

Catalog Number: 152641
Light green S.F. yellowish

Structure:

Molecular Formula: C₃₇H₃₄N₂Na₂O₉S₃

Molecular Weight: 792.80

CAS # : 5141-20-8

Synonym: Acid green5

C.I. #: 42095

Physical Appearance: Deep purple powder

Description: Useful as a general plasma stain, as a histological stain and a cytological counterstain

Solubility: Soluble in water (clear green solution)
