

## TECHNICAL INFORMATION

Catalog Number: 153626

### Benztropine Mesylate

**Structure:**

**Molecular Formula:** C<sub>22</sub>H<sub>29</sub>NO<sub>4</sub>

**Molecular Weight:** 403.49

**CAS # :** 132-17-2

**Synonym:** 3-(diphenylmethoxy)-8-methyl-8-azabicyclo[3.2.1]octane methane sulfonate

**Physical Properties:** White crystalline powder

**Description:** Muscarinic receptor antagonist

**Storage:** Store tightly sealed at room temperature.

**Solubility:** Soluble in water. Solutions may be stored for several weeks at 4°C.
