

## TECHNICAL INFORMATION

Catalog Number: 101656, 157943, 157944, 157945, 157946, 190411, 190412, 190413, 190414, 190415, 190458, 194564, 194565, 195052, 195050

### beta-Estradiol cell culture

#### Structure (of b-estradiol):

#### b-estradiol-17-enanthatate:

**Synonyms:** 1,3,5(10)-Estratriene-3,17b-diol; (17b)-Estra-1,3,5(10)-triene-3,17-diol; cis-estradiol; 3,17-epidihydroxyestratriene; dihydrofollicular hormone; dihydrofolliculin; dihydroxyestrin; dihydrotheelin; Dimenformon; Diogyn; Estrace; Estraderm; Estroclim; Evorel; Gynoestryl; Macrodiol; Menorest; Oestrogel; Ovocyclin; Ovocylin; Profoliol B; Progynon; System; Vagifem; Zumenon

**Physical Description:** White to off white powder

$E^M(280 \text{ nm}) = 1950^{(11)}$

#### Solubility:

b-Estradiol: Almost insoluble in water(50 mg/ml-clear, colorless solution). Freely soluble in alcohol; soluble in acetone, dioxane, other organic solvents; solutions of fixed alkali hydroxides; sparingly soluble in vegetable oils; soluble in methanol:CHCl<sub>3</sub> (1:1)

b-Estradiol-3-Benzoate: Soluble in alcohol, acetone, dioxane; slightly soluble in ether, vegetable oils.

b-Estradiol-17-enanthatate: Soluble in ethanol, acetone, dioxane and chloroform; sparingly soluble in vegetable oils; practically insoluble in water.

Other forms: soluble in alcohol, acetone, dioxane; slightly soluble in vegetable oil; slightly soluble in aqueous buffers.

**Description:** Potent mammalian estrogenic hormone produced by the ovary. Triggers the production of gonadotropins leading

to ovulation.

**Availability:**

Catalog Number	Description	CAS #	Molecular Formula	Size
101656	b-Estradiol	50-28-2	C <sub>18</sub> H <sub>24</sub> O <sub>2</sub>	250 mg 1 gm 5 gm 25 gm 100 gm
194564	b-Estradiol, cell culture reagent, g-irradiated	50-28-2	C <sub>18</sub> H <sub>24</sub> O <sub>2</sub>	1 mg
194565	b-Estradiol, cell culture reagent	50-28-2	C <sub>18</sub> H <sub>24</sub> O <sub>2</sub>	250 mg 1 gm 5 gm 25 gm
157943	b-Estradiol 17-Acetate	1743-60-8	C <sub>20</sub> H <sub>26</sub> O <sub>3</sub>	250 mg 1 gm 5 gm
