

TECHNICAL INFORMATION

Catalog Number: 194006, 194007

Isopropyl Alcohol

Structure:

Molecular Formula: C₃H₈O

Molecular Weight: 60.1

CAS # : 67-63-0

Synonyms: Isopropanol; 2-propanol; petrohol

Physical Description: Clear, colorless liquid

Solubility: Soluble in water, alcohol, ether, chloroform; insoluble in salt

Description: Ideal for precipitating nucleic acid

Availability:

Catalog Number	Description	Size
194007	Isopropyl Alcohol, ACS Reagent Grade	500 ml 1 liter
194006	Isopropyl Alcohol, Molecular Biology Reagent	25 ml 100 ml 500 ml
