

TECHNICAL INFORMATION

Catalog Number: 201981

Dichlorophene

Structure:

Molecular Formula: (C₆H₃ClOH)₂ CH₂

Molecular Weight: 269.13

CAS # ; 97-23-4

Synonyms: 2,2'-Methylenebis [4-chlorophenol]; 2,2'-dihydroxy-5,5'-dichlorodiphenyl-methane;
5,5'-dichloro-2,2'-dihydroxy-diphenylmethane

Physical Appearance: Light pink to tan to white powder

Use with Water Tanks: Lightly sprinkle the water surface with dichlorophene. When it has all settled to the bottom of the tank, then reapply.

Solubility: Soluble in ethanol, methanol, isopropyl ether, petroleum ether, alcohol or acetone; sparingly soluble in toluene; practically insoluble in water
